ANTS Lets take a little lesson from the busy little ant. Lets linger a moment close, but not too close, to a family of 'em and watch their antics. May resemble a miniature Marathon, but there's real purpose in their running, they are demonstrating that there is a little bit of brains above their biter, for their hurry-up business means they realize that now's the time to store stuff for winter use and they are doing it. Natural history lessons over. Did you get the point? Then profit by it. Store some of our QUALITY COAL now for next winter. IT PAYS.

People One "Runs Across."

"I don't like people I run across—women, especially. I should be a nervous ghost by this time if I had stopped to like people. Fancy all one's chances encounters, turning into pulls on one's affection—like the ropes the Lilliputians tied round Gulliver. If I had been Gulliver, I should have gone mad. I'd rather be tied with one stout steel cable than with a million threads."—Scribner's Magazine.

I have used it myself and found it gave me more relief than anything else I have ever tried for the same purpose."—Obtainable everywhere.—Adv. d&w

Children's Feet Demand Care

Years of discomfort in later life may be avoided by paying proper attention to the children's shoes. Growing feet should be fitted with painstaking care. Children are liable to say anything is all right, just to get over the ordeal of fitting.

We take a pride in finding for each little pair of feet just the shoes they need. We carry the lines of shoes that will stand the rough wear children will give them.

Bring the children in. Of course we have everything for men and women's feet, too.

COFFEE

When we know anything is good, we just MUST talk about it. Now, there is our coffee. Some people walk blocks for a cup of it. Yes, we've watched them. Some women make a pretense of headache just to get a cup between meals. We understand that and guarantee the cure. Some people order ice cream and after the first bite "O, say, bring me a cup of coffee, too; this cream is too cold." They come in to wait on a friend or the car and drink coffee while waiting. Some cool, damp day we are going to count the cups sold and tell you how many. We are proud of our COFFEE. Ever try it?
